

MWFHC  
EXECUTIVE COMMITTEE AND SHOW COMMITTEE  
MEETING WITH GARY AND SHIRLEY JOHNSON  
BLUE EARTH FAIR BOARD  
02.18.2006

It was requested of the Fair Board that there be a loudspeaker in the warm-up area and tie it together with the barn system. The barn is on a different system at this time.

Inclement weather was discussed. The County Sheriff will notify Gary Johnson and he will relay the message to Marlin Krupp who will call the show if need be.

During the show, we would like the road by the wash rack and between the barn and the arena to the first intersection blocked off so no traffic will be going through there.

The building used to sell merchandise last year, is owned by Marlin Krupp. The Club may be interested in buying it if Marlin would like to sell it.

Gary was informed that the Club would be willing to spend some of the auction money on a permanent warm-up arena. Gary will see if he can get matching funds from Thrivent or the two saddle clubs that use the arena eight Saturdays each summer.

Gary was informed about the danger of the lever on the gate at the east end of the barn. He will see that it is changed or removed.

The Fair office phone number will be published in the show packet. The number is 507.526.5802.

Adjournment.

Respectfully submitted,

Therine Gudknecht  
Secretary
